A RASCALLY QUARANTINE AGENT.

MARTIAL LAW TO BE DECLARED BY DICTATOR GRANT.

THE WIND THAT BLOWS FOR NAPOLEON.

THE WESTFIELD MURDERERS INDICTED.

EXCITEMENT AMONG THE GERMANS.

THE ROBBERIES OF A PRISON HOUSE.

THE TERRIBLE ABORTION CASE.

REDUCED.

New-York, September 1.—The committee of the board of assessors, of Brooklyn, have succeeded in reducing the valuation of King's county, as estimated by the state board of assessors, by at least twenty million dollars.

THE QUARANTINE TROUBLE.

The Tribune, to-day, thinks Gov. Hoffman's letter to C. H. Marshall & Co., who complained of the quarantine charges of the quarantine officers, is no answer to the accusations made, and repeats that Dr. Canochan, the health officer, accepted a bribe of forty thousand dollars for granting, to a certain company, the privilege of plundering the commerce of the port.

MARTIAL LAW IN THE SOUTH.

It is stated in the Washington special that the object of the president's visit is for the purpose of issuing a proclamation, under the kuk-uk act, declaring martial law in some sections of the south.

NAPOLEON.

Foreign journals state that on the occasion of Napoleon's late day, on the 1st, the sides of the congratulatory telegrams from the heads of the European governments, the ex-emperor received 1,000 letters, 300 dispatches, various presents, and an address signed by 6,000 business men of Paris.

The grand jury this morning presented bills of indictment against the president and superintendent of the State Island and Ferry Co., and Inspector Matthews for culpability in the Westfield disaster.

New-York, September 1.—There is considerable feeling being aroused among the Germans growing out of the action of the German general committee on Monday last. Meetings were held last evening in the sixth, tenth and twenty-first wards to consider the conduct of the general committee. A meeting of the committee of the 21st ward will be held this evening. Their movements are exciting apprehension and alarm among the leaders of the Tammany ring generally.

The Tribune has a chapter on the management of the Ludlow street jail in this city, and says that in addition to the sufferings entailed by the jail, the sheriff's officers in charge of this prison add per secution, direct robbery and absolute impoverishment.

Officials are carrying on an abominable scheme of plunder. The prisoner is extorted on every hand; he is advised to employ a lawyer, who pays the jailer a percentage on his profits. The jailer is a retailer of liquor without license, keeps a pawn shop which the necessities of the prisoner require him to patronize, and is robbed of his money after the most approved manner; money lender, he cheats the prisoner and justice alike by furnishing, for a consideration, worthless straw bail.

There is still considerable excitement in reference to the Rosenzweig abortion case. The suicide of Konklin, the alleged seducer of the murdered Miss Bowlesby, of Paterson, creates great excitement in that place. Konklin, who appears to have been repeatedly connected, left a note stating that the fear of being a witness in the affair impelled him to end his life. The evidence against Rosenzweig is becoming stronger. He appeared greatly alarmed when informed that the identity of Miss Bowlesby had been established by the coroner's inquest. The investigation is still going on, but nothing new has thus far been developed.

The coroner's jury find that Alice A. Bowlesby came to her death from *metere peritantes*, result of abortion produced by Jacob Rosenzweig.

HALIFAX.

EXCITING FOUR-OARED BOAT RACE.

NOVA SCOTIA.

HALIFAX, September 1.—The four-oared race to-day was one of the most brilliant events in the annals of aquatic sports. The course was three nautical miles in length. The competing boats were required to double course the distance, making it nearly seven miles. The morning was delightfully clear, and gathered crowds were assembled on the erected stands, and lined the docks and houseboats along the city front.

Shortly before the race a sea breeze had sprung up, making the water rough, especially the lower part of the course.

In the drawing of positions the American crew got the worst position, on the outside, near the eastern shore harbor. At the start it was impossible to say which got water first. Roche's boat fell behind after a few minutes, but the other five kept together pretty steadily for the first two miles. The advantage which the two English crews had gained in getting the inside position gave them smooth water along the wharves, while the Americans, being out in the stream, got full force of the wind and rough water in mid channel.

nel. The first turning was made by Roche's boat, Taylor crew came next, then Pryor crew and Americans last.

The Americans gained rapidly as soon as they got the course as smooth as that on which the Englishmen were rowing. The contest between the leading boats was intensely exciting for the last mile of the race. The result of the race created very little excitement. The Americans believe that if their boys had not been crowded out of the worst part of the course they would have won. The Bigler crew say that their boat struck a half-sunken piece of timber, which they think had the effect to throw them back and make them lose the race.

The Burton crew (Americans) lost two boat-lengths in turning by the stupidity of some judge or other official, which considerably increased the distance they had to make in turning.

In the single scull race, this morning, seven started. The race was won by Sadler, of the Tynecrew; Brown, of Halifax, second, and Kelly third.

#### CHICAGO.

WILSON FOR SENATOR IN IOWA.

DROWNING OF A FRAIL ONE.

CHICAGO, September 1.—A special from Des Moines says that Hon. James F. Wilson has been nominated to be a candidate for the United States Senate from Iowa. Mr. Wilson is now east, but before leaving he informed a friend that if the general assembly, when they came together, thought it advisable to elect him he would accept the trust.

A few days ago a boat was upset in the lake and a man and woman, the occupants, were thrown into the lake. The man was picked up and while on the way to the police station with Mr. McGovern, who rescued him, ran away and made his escape.

Yesterday, the man was discovered in the Northwestern railroad company's shop, and was arrested. He explains his conduct as follows:

He said he had been on a spree and met the girl, who was drowned, on the street, and asked her to take a boat ride. She consented. They obtained a boat, and when about a mile from the shore she asked him to let her row the boat. While changing places the boat upset and she was drowned. The reason, he says, for his running away, when on his way to the police office, was that he was a married man, and did not want his wife to know that he had been boating with a prostitute. He was held for examination.

It is now said that there will be no confirmation in Christ Church until Bishop Whitehouse requests Mr. Cheney to present the candidates which he probably will not do.

It should be understood that the action of Mr. Cheney has, from the first, had the cordial support of his wardens and vestrymen; in fact, that he follows them instead of being their leader.

At a meeting of the vestry last night, Mr. Cheney offered his resignation for the fifth time, but it met with a unanimous no.

#### FOREIGN.

##### FRANCE.

VERSAILLES, Sept. 1.—The authorities sent congratulatory despatches to Thiers on the prolongation of his term of office. Advice from his department says the people generally approve the action of the Assembly in relation to the Chief-Executive.

The pending negotiations with the Germans through Baron Von Arnim concerning the evacuation of French territory, are being facilitated by the assembly with the endorsement of Thiers.

A dispatch from Paris says the Austrian ambassador to the French says that Italy declined to participate in the conference of Gastein.

##### ENGLAND.

LONDON, September 1.—A court martial has been ordered to thoroughly investigate the accident to the iron-clad Repulse, which has been aground at Sheerness.

The United States steamer Shenandoah is at Messina.

The steamships China, Queen, and City of Liverpool, all from New-York, touched at Queenstown and proceeded to Liverpool.

It is reported that Kelly, who is accused of the murder of Talbot, has escaped from prison.

#### WASHINGTON.

WASHINGTON, Sept. 1.—The President has declined an invitation from the Canadian authorities to visit New Brunswick on the occasion of the opening of the European and North American railway company.

##### GEORGIA.

SAVANNAH, September 1.—The leading physicians here publish a statement to-day that no cases of yellow fever have thus far appeared in Savannah, nor any disease that approximates thereto. They declare, also, that this season has been the healthiest that has been experienced in this city.

YANKTON, DAKOTA, T., September 1.—James R. Newman, formerly of Chambersburg, Pa., was drowned last evening at the foot of Broadway, in the Missouri river. The body was not recovered.

Much interest is manifested here in the election which is to be held to-morrow on the question of issuing bonds to aid in building a railroad.

We would call the attention of our country friends who want to get good pictures to call on J. J. Thomas, who has a very pleasant gallery on Commercial avenue for their accommodation, and is really the best artist we have had in Cairo or a long time.

J. J. THOMAS has fitted up the room lately occupied by W. G. Worthingtons on Commercial avenue, where he is doing a good business. Go and see him and give him a trial. He is prepared to do all kinds of work in the photograph line, and does it well.

Paul G. Schuh sells Rattinger's medicines.

OYSTERS.—Louis Herbert has always on hand a fresh supply of Saddle Rock oysters.
